UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION—INDEX TO VOLUME 1

AUGUST 1935–JUNE 1936

	Number	Page
Act of April 27, 1935, provision for soil conservation program	1	3
Agriculture, Secretary of, message on soil-erosion control	1	1
Agronomic—		
conferences, regional	11	11
program for erosion control. Charles R. Enlow	11	10–11, 15
ALLIS, JOHN A.: How Silt Is Measured on Project Streams	1	5–6
ALLRED, B. W.: Better Prices from Controlled Grazing	7	5
BARBER, SOLON R.: Party "Shoots" Colorado River Gorge for Silting and Erosion Information	10	6–9, 14
Barnyard gullies, prevention. R. B. Hickok	2	16
BENNETT, H. H.—		
A Look at Some of the Western Projects	4	1–8
Holiday Greetings to Soil Conservation Service Employees	5	7
Bermuda grass—		
use as a cover crop	5	13
use in soil-erosion control	3	5
Book reviews and abstracts. Phoebe O'Neall Faris. Each issue beginning with no. 6.		
Braille map, use by blind man for study of soil-erosion control	2	3
BRINK, WELLINGTON—		
A Note on Erosion Control in the Piedmont	8	6–9, 11
Flashes from the Texas Front	11	3–8
BROWN, CARL B.: Studies of Reservoir Silting	10	1–5, 14
Buffalo grass seed, harvesting machinery, development. Guy C. Fuller	6	8–10, 13–14
CARNES, ERNEST: Building Terraces to Fit the Rotation Program	6	11
Cecil clay loam, erosion control experiments on, results	3	10–11
CHAMBERS, T. B.—		
Cooperative Efforts Launched to Control Erosion Along Highways	9	1–4, 11
Terracing Practices Vary According to Conditions	1	12–13
CHAPMAN, I. N.: Visitors See Farms Restored When Erosion Is Controlled	5	9, 11
CHIERA, ALBERT—		
Dams That Grow	4	11, 13
Flood Control Work in Italy	10	15
Halting Italy's Shifting Sands	6	14
Civilian Conservation Corps, work in soil conservation. Robert Fechner	6	1–4
Clay drifts, of Tule Lake Sump	2	14
COLLIER, CHARLES W.: Soil Conservation in the Navajo Country	3	1–4
COLLINS, HENRY E.: Plants of Promise in Gully Slope Protection	4	13
Colorado, range lands, protection. J. G. Lindley	9	12–13
Colorado River Gorge, silting and erosion information by survey party. Solon R. Barber	10	6–9, 14
Contour—		
furrows—		
machine for	3	16
making with new machine. C. A. Logan	9	14–15
listing—		
labor advantages of. R. L. von Trebra	3	5
saving of soil and moisture	7	14
Corn, change to diversification. R. E. Uhland	9	15
Cover, poor, comparison with none. M. E. Musgrave	8	13
Crop rotation, in connection with strip cropping, plans. H. L. Thomas	8	4–5
Dams—		
check, stabilization of gullies	5	16
growth. Albert Chiera	4	11, 13
use to impound State's water against time of drought. L. C. Tschudy	2	11, 14
Dan River, history for two centuries. P. L. Keil	7	1–5
DEETER, E. B.: One Hard Rain Did This	1	9
DOSSON, G. C.: A Formula for Capacities of Reservoirs	7	7–9
Drought, anticipation by impounding of State's water in dams. L. C. Tschudy	2	11, 14
DUNTON, H. L.: Meadow Strips in Erosion Control	8	10–11
Dust spots, of Oregon, location by airplanes	4	13

82680—36

PUBLIC LIBRARY
DETROIT MICH.

	Number	Page
EAKIN, HENRY M.: Meeting the Menace of Overflow Waters	6	5-6
Economic aspect of soil conservation, research. Walter J. Roth	9	9-11
Employment, of relief labor, progress	3	11
	4	8
	5	16
Engineering strategy in wind-erosion area. L. C. Tschudy	6	12-13
ENLOW, CHARLES R.—		
Agronomic Program for Erosion Control	11	10-11, 15
Regrassing the Semiarid Plains	7	11-13
Erosion—		
Colorado River Gorge, information gained by survey party. Solon R. Barber	10	6-9, 14
control—		
agronomic program. Charles R. Enlow	11	10-11, 15
along highways, cooperative efforts. T. B. Chambers	9	1-4, 11
experiments on Cecil clay loam, results	3	10-11
hydraulic studies. J. T. McAlister	10	10-11
in Piedmont, note. Wellington Brink	8	6-9, 11
in wheat lands of Pacific Northwest. W. A. Rockie	1	14-15
meadow strips in. H. L. Dunton	8	10-11
on restored farms, inspection by visitors. I. N. Chapman	5	9, 11
project, tour by farm advisers in Illinois	2	13
projects, program for	1	2
western projects, survey	4	1-8
effect on productivity, evaluation	5	8
head, occurrence at Burlingame, Wash	5	14-15
high cost to highways, shown by study	8	14
maps, available for distribution	3	15
preventable, cause of silting of reservoirs, results, survey	3	6-7, 14
wind—		
area, engineering strategy in. L. C. Tschudy	6	12-13
control by use of moisture measurements. O. T. Williams	7	14-15
on summer-fallowed wheatlands of West. A. L. Hafenrichter and H. M. Wanser	2	8-10
FARR, PHOEBE O'NEALL: Book Reviews and Abstracts. Each issue beginning with no. 6.		
Farm—		
advisers, tour of erosion-control project in Illinois	2	13
debt burden, relation to soil conservation, review	1	16
management, study in Ohio	11	13-14
sloping, need for proper forest cover protection	3	10
Farms, restored by erosion control, inspection by visitors	5	9, 11
FECHNER, ROBERT: The C. C. C. in Soil Conservation	6	1-4
Fence line, use of black locust seedlings after six years	11	12
Flood—		
control work in Italy. Albert Chiera	10	15
See also Overflow.		
Forest litter, freezing, and run-off	11	14
FULLER, E. EDGAR: A Gila River Gone Berserk	3	12-13
FULLER, GUY C.—		
Developing Machinery for Harvesting Buffalo Grass Seed	6	8-10, 13-14
Machinery That Facilitates the Harvesting of Grass Seed	5	12-13
Furrows—		
contour—		
machine for	3	16
making with new machine. C. A. Logan	9	14-15
use in restoring pasture land	2	2
Gila River, gone berserk. E. Edgar Fuller	3	12-13
Grass—		
pastures, native, rejuvenation. B. C. Langley	11	1-2
seed—		
harvesting, machinery for facilitating. Guy C. Fuller	5	12-13
native, demands for	2	14
Grasses, resistance to drought, survey. D. A. Savage	2	4-5
Grazing, controlled, better prices from. B. W. Allred	7	5
Gullies—		
barnyard, prevention. R. B. Hickok	2	16
control by vegetation in South Carolina. George L. Harmon	10	12-13
stabilization by check dams	5	16
Gully—		
control—		
by detention of reservoirs. Dwight D. Smith and Emerson Wolfe	4	12-13
efficacy of Kudzu in	4	16
slope, protection by promising plants. Henry E. Collins	4	14-16
HAFENRICHTER, A. L.: Wind Erosion on the Summer-Fallowed Wheatlands of the West. With H. M. Wanser	2	8-10
HARMON, GEORGE L.: How Gullies Are Controlled by Vegetation in South Carolina	10	12-13
Harvesting machinery for buffalo grass seed, development. Guy C. Fuller	6	8-10, 13-14
HICKOK, R. B.: Preventing Barnyard Gullies	2	16
Highway protection in Nebraska	5	11
Highways—		
erosion along, control, cooperative efforts. T. B. Chambers	9	1-4, 11
high cost of erosion to, shown by study	8	14

	Number	Page
Hydraulic studies of erosion control. J. T. McAlister	10	10-11
Illinois, farm advisers, tour of, erosion-control project	2	13
Italy—		
flood control work. Albert Chiera	10	15
shifting sands in, halting. Albert Chiera	6	13
Keil, P. F.: Two Centuries of Accruing Tragedy Along the Dan River	7	1-5
Kudzu—		
farmer's friend. E. M. Rowalt	8	12, 13, 14
use in gully control work	4	16
Labor—		
advantages of contour listing. R. L. von Trebra	3	5
on relief, employment, increase	3	11
	4	8
	5	16
Laidlaw, A. F.: One Stream and Two Farms	3	10
Land thrift, instruction for high school boys	1	6
Lands, range, Colorado, protection. J. G. Lindley	9	12-13
Langley, B. C.: Rejuvenating Native Grass Pastures	11	1-2
Lespedez, legions of. Paul Tabor	2	6-7
Lime, factor in soil conservation. Sidney P. Armsby	4	9
Limestone, distribution to farms for increase of crop yields	1	M
Lindley, J. G.: Protecting Colorado's Range Lands	9	12-13
Lister, damming, usefulness	8	3
Listing, contour—		
labor advantage of. R. L. von Trebra	3	5
saving of soil and moisture	3	14
Locust, black, seedlings of planting for erosion control and fences	11	12
Logan, C. A.: A New Machine for Making Contour Furrows	9	14-15
Lowdermilk, W. C.—		
Impressions of the Third International Soil Science Congress	2	1, 15
Some Aspects of Research in the Soil Conservation Service	5	1-7
Loxterkamp, Leo: W. P. A. Figures March Toward July Goal	11	9, 13
Machine, new, for making contour furrows. C. A. Logan	9	14-15
Machinery—		
for facilitating grass seed harvesting. Guy C. Fuller	5	12-13
harvesting, for buffalo grass seed, development. Guy C. Fuller	6	8-10, 13-14
Machines, contour furrows, use in erosion control projects	3	15
Map, Braille, use by blind man for study of soil erosion controls	2	3
Maps, on erosion conditions, availability for distribution	3	15
Marbut, Dr. Curtis F., deceased, tribute	2	3
McAlister, J. T.: Hydraulic Studies of Erosion Control	10	10-11
Meadow—		
lands, burning, losses from	5	16
strips in erosion control. H. L. Dunton	8	10-11
Minnesota, sinkhole terrace outlets. Loyal Van Doren	7	10
Moisture—		
measurements, use in wind-erosion control. O. T. Williams	7	14-15
saving by contour listing	7	14
Musgrave, M. E.: Even Poor Cover is Better than None	8	13
Navajo country, soil conservation in. Charles W. Collier	3	1-4
Nebraska, highway protection in	5	11
North American Wildlife Conference and soil conservation. William R. Van Dersal	8	15
North Carolina, establishment of voluntary soil conservation associations	2	2
Nurseries, new, establishment by Soil Conservation Service	2	10
Nursery program, unification for better efficiency	3	8-9, 14-15
Ohio, farm management study	11	13-14
Oregon, dust spots, location by airplanes	4	13
Outlets, sinkhole terrace, in Minnesota. Loyal Van Doren	7	10
Overflow—		
waters, menace of, meeting. Henry M. Eakin	6	5-6
See also Flood.		
Pacific Northwest wheat lands, erosion control in W. A. Rockie	1	14-15
Paschall, A. H.: Evaluating Effects of Soil Type, Slope, and Erosion on Productivity. With E. H. Reed	5	8
Pasture, contours for, results achieved. D. V. Stapleton	1	7-8
Pastures—		
grass, native, rejuvenation. B. C. Langley	11	1-2
restoration by contour furrows	2	2
Piedmont, erosion control, note. Wellington Brink	8	6-9, 11
Plains, semiarid, regrassing. C. R. Enlow	7	11-13
Plant life survey in erosion-control work	1	13
Plants, promising for gully slope protection. Henry E. Collins	4	13
Prices, from controlled grazing, improvement. B. W. Allred	7	5
